

# NOTICE OF REGISTRATION

## RISK MANAGEMENT PROGRAMME

Pursuant to section 22 of the Animal Products Act 1999, the Director-General has registered a risk management programme for:

**Waitaki Biosciences a division of Pharmazen Limited**

Located at:

**320 Port Hills Road, Hillsborough  
CHRISTCHURCH**

This risk management programme has been assigned the identifier:

**PH3/01**

Risk management programmes manage hazards and other risk factors associated with animal products in order to ensure fitness for intended purpose, and are based on the principles of HACCP.

**This registration is effective from 31/05/2023 and is subject to the condition(s) specified in the attached notice of conditions, issued under section 22(2).**

Signed at Wellington on **1/06/2023**

Maree Zinzley  
Manager Approvals  
Acting under delegated authority  
Ministry for Primary Industries

## NOTICE OF CONDITIONS

*Issued pursuant to section 22(2) of the Animal Products Act 1999*

This notice informs **Waitaki Biosciences a division of Pharmazen Limited** that the registration of the risk management programme with the official identification number **PH3/01** is subject to the following condition(s):

1. The Operator must provide the MPI Appointment and Approvals group with a written report from a recognized evaluator confirming that confirmation of validity has been completed in accordance with the previously evaluated documented protocol for thermal treatment of meat and thermal re-processing of contaminated dry product. The report must make appropriate recommendations with regard to the ongoing acceptability of the risk management programme subsequent to the completion of confirmation of validity.
2. Any product that does meet the IPCs documented in the RMP must be disposed of in accordance with company product disposal procedures.
3. The operator must provide the MPI Approvals group with a written report from a recognised evaluator confirming that confirmation of validity for receiving live BMS, crushing, separating and freezing the meat extract has been completed in accordance with the previously evaluated documented protocols.

The operator must provide the MPI Approvals group with a written report from a recognised evaluator confirming that confirmation of validity for solvent extraction of Listeria and E.Coli contaminated mussel has been completed in accordance with the previously evaluated documented protocols.

The reports must make appropriate recommendations with regard to the ongoing acceptability of the registered risk management programme subsequent to the completion of confirmation of validities.
